Re: Glacier Hills Wind Park, Docket No. 6630-CE-302

Dear Ms. Paske:

Submitted herewith is the Request to Intervene of Neighbors Caring About
Neighbors.

Thank you very much.

Very truly yours:

Edward S. Marion

cc: Service List

**BEFORE THE
PUBLIC SERVICE COMMISSION OF WISCONSIN**

Application of Wisconsin Electric Power Company
for a Certificate of Public Convenience and Necessity
to Construct a Wind Electric Generation Facility and
Associated Electric Facilities to be known as the Glacier
Hills Wind Park, Located in the Towns of Randolph
and Scott, Columbia County, Wisconsin

Docket No. 6630-CE-302

REQUEST TO INTERVENE

Pursuant to Wis. Stat. § 227.44 (2m) and Wis. Admin. Code § 2.21, Neighbors Caring About Neighbors (NCAN") hereby requests to intervene in this docket.

1. NCAN is a 501 (3) (c) not for profit organization, with approximately 200 members, all or most of whom live within or adjacent to the proposed Glacier Hills Wind Park (the "GHWP"). The mission of NCAN is the preservation of rural Wisconsin life, which embodies the community's health, safety, quality of life, and landscape. NCAN and its members are concerned about the health and safety impacts of the GHWP and the facility's impact on property values. The Coalition for Wisconsin Environmental Stewardship ("CWEST") submitted information about NCAN in support of CWEST's request for intervener compensation. PSC Ref#: 115941. NCAN is affiliated with CWEST.

2. Although it was an active party through the issuance of the Final Decision, CWEST does not expect to participate further in this docket. Because CWEST represented NCAN's interests, it was not necessary for NCAN to ask for party status until now. With the expected lack of further participation by CWEST, it is now necessary for NCAN to

become a party.

3. In its application to construct the GHWP, Wisconsin Electric Power Company ("WEPCO") represented to the Commission that the company "possesses the necessary control of lands required for alternative and preferred turbine sites, cables and roads, and O&M facility via easements and easement and purchase options." Application, PSC REF#: 103284, p.2. At the present time, however, WEPCO is aggressively pursuing additional easements for the installation and maintenance of underground electric cables and communication wires.

3. The Commission's final decision granted WEPCO the authority to make minor modifications to the project upon notice to commission staff, in some cases, and with the approval of staff, in other cases. The decision rejected WEPCO's request to make certain other modifications.

4. Parties and the affected public should be entitled to review and to comment on WEPCO's proposed modifications. Party status will ensure that the interests of the affected community --previously represented by CWEST-- will continue to be represented, through that review and comment.
